## **City Receives “Green Telligence” Award for City Hall Renovations**

The West Cook County Solid Waste Agency awarded the City of Northlake with its 6th annual “Greentelligence” Award. The award, which will be officially presented at the Agency’s annual dinner on May 10th, is given in recognition of the City’s creativity and practicality relative to environmental approaches and solutions when undertaking the recent renovations at City Hall.

The following design features were incorporated during the build out of the space formerly occupied by the police department:

- Closed cell foam insulation on all exterior walls achieving rating of R-21
- Installation of 42 solar tubes through the roof to bring natural daylight to the interior spaces of the building
- Roof insulation achieving an R-40 rating
- White polymer roofing to reflect heat
- Insulated/tinted thermopane energy efficient windows provided by an energy grant
- Energy efficient lighting throughout building funded by an energy grant
- Recycled denim insulation in walls between offices for sound control
- Re-use of stainless steel railings salvaged from the old Entenmann’s building
- Re-use of concrete “holding room” from old police station as a secure vault for records
- Re-use of steel bunk beds from old jail as shelving for records
- Re-use of bricks from demolished buildings for interior accent walls
- Re-use of ceiling tiles salvaged from old City Council Chambers and former Mark Twain School
- Re-use of “like new” light fixtures salvaged from a hospital in Indiana
- Re-use of stainless steel sink salvaged from former hospital
- Re-use of toilets and urinals salvaged from old police department and former hospital
- Re-use of counter window from old police dispatch room
- Re-use of security doors from old police station
- Re-use of old wallpaper removed during hallway renovation
- Re-use of lumber and cabinet doors salvaged from former Mark Twain School
- Re-use of doors salvaged from old police station to build conference table
- Re-use of file cabinets salvaged from old Elmhurst Hospital
- Re-use of conference table salvaged from former hospital
- Re-use of file cabinets salvaged from closed office building slated for demolition
- Re-use of conference room chairs salvaged from closed office building slated for demotion
- Re-use of pendant light fixtures salvaged from closed office building
- Re-use of cabinet display from Home Depot in kitchen
- Re-use of old fire hydrants as base for conference table
- Re-use of chairs donated by moving company for City Council seating
- Re-use of electric sign salvaged from Automatic Electric
- Installation of energy efficient air conditioning units paid for by energy grant
- Selling, donating or giving away of old doors, cabinets, concrete blocks, light fixtures and other building materials salvaged during demolition of old police station space, rather than sending material to landfill
- Re-used granite from front of building for counter tops

As you can see, much thought was given to re-use and recycling of materials as well as energy efficient upgrades when the recent renovations at City Hall were done. Once we started, it became second nature to ask what could be done with something rather than throw it

out. The new space at City Hall looks great. While it was “green” for the

environment, it was also “green” for the City’s budget. The majority of the cost of the renovations was delivered through energy grants and a grant from the Illinois Department of Commerce and Economic Opportunity secured by former State Representative Skip Saviano. This project was completed without any borrowing.

Honorable Jeffrey Sherwin, Mayor  
City of Northlake  
55 East North Avenue  
Northlake, IL 60164

Dear Mayor Sherwin:

The West Cook County Solid Waste Agency is pleased to inform you that the City of Northlake is the 2013 recipient of the Agency’s sixth annual “GREENTELLIGENCE AWARD” which recognizes both creativity and practicality relative to environmental approaches and solutions.

Specifically, your effort in planning and constructing the City of Northlake City Hall was consistent with the template that was utilized in the creation of this award.

Additionally, the award carries a \$1,000.00 Agency grant that will be presented to your Community at our Annual Dinner on May 10, 2013.

Once again, congratulations to you and your community for a job well done.

Warmest Personal Regards,

Richard F. Pellegrino

## Pace Offers Park-n-Ride Locations to Commuters

For those who may not live or work near a bus route, driving to one of Pace’s Park-n-Rides may

make transit service more accessible. Commuters can park their car for little or no cost and get picked up by a Pace bus. Pace Park-n-Ride locations and pricing (where applicable) can be found at PaceBus.com.

PaceBus.com offers an interactive Park-n-Ride mapping tool called WebRoute designed to allow commuters to identify Park-n-Ride locations and bus routes near their home or work. There are 12 Pace-owned Park-n-Rides and over 20 other Park-n-Rides that serve Pace bus routes throughout Cook, DuPage, Lake and Will counties. Parking spaces are marked with Pace signage to let riders know where to safely park.

For more information, please visit PaceBus.com or contact Thomas Robbins, Community Relations Representative at 847-722-8942 or [Thomas.robbs@pacebus.com](mailto:Thomas.robbs@pacebus.com).

## Dollars and Sense *By Fred Paul*

### Trees Manage Rainwater and May Save You Dollars

Trees may actually prevent more flooding in the area than has occurred. Mature trees capture the rainwater to help normal storms from becoming floods. Water drips from leaf to leaf and is partially absorbed by the leaf, evaporating before it reaches the ground. The remaining water goes into the soil and gets absorbed into the trees root system. The roots help to keep the soil from washing away.

Mature trees intercept 25 to 35 percent of rainwater that falls on them. The average mature tree keeps about 1,400 gallons of water from flowing into storm sewers. That's 1,400 gallons that keeps water from going into storm sewers and backing up into anybody's basement. Since we have paved over much of our land, trees help to capture the rain. All the rain that falls on paved land runs off into storm sewers, where it sometimes is too much to handle. Trees can help. Planting trees is extremely beneficial to homeowners who are trying to protect their homes from too much water in the sewer system.

# “My Old Northlake”

Fred Castiglia was the first to recognize that the picture was the old Ful-Roy Park at Fullerton and Roy Street. Many people responded saying they remember skating there.

Can you identify this photo? Submit your answer by emailing the mayor at northlakemayor@comcast.net. If you have old city photos with a story please submit copies to the Mayor's office for future contests.

## Trees Available for 2013 Planting Season

Trees for the 2013 spring or fall planting are available. As a matter of fact, you can make a request for a tree to be planted during any time in the next 5 years. If you have room on your parkway to provide a home for a tree, call Public Works at 708-562-0940 to pick from the list of trees for planting.

Remember, trees located on the parkway or in the City's right of way cannot be cut or trimmed without permission from the City. The right of way is generally the area 20 feet from the back of the curb. If in doubt, or if a tree in this area needs attention, call Public Works at 708-562-0940.

# From the Building Department and Code Enforcement Department

The warm days of summer are upon us. This is the time that many property owners are enjoying the outdoors, doing home improvements and gardening. Here are some things to keep in mind this summer.

## PROPERTY MAINTENANCE

- Grass should be kept at no more than 8 inches in height. Noxious weeds are prohibited.
- Bushes, trees, and other plantings must be trimmed so that they are not a hazard. In particular, they must not impede pedestrian and automobile traffic.
- When cleaning your yard, don't forget the alley, if you have one
- Keep garbage can lids on tight
- Screens must be in place on all windows and remain in good repair
- Remove all standing water
- Clean up after your pets

## CODE ENFORCEMENT COMPLAINTS

In the spring and summer, the code enforcement officers handle hundreds of complaints.

## Feeding Wild Animals

Feeding birds is a favorite pastime for many, but birdseed also lures nuisance animals like pigeons, squirrels, raccoons, skunks, and even rats. By increasing the food supply, feeding birds can encourage the rapid growth of animal populations. Department of Public Health and Safety officials are often then required to trap the intruders. Diseases are also spread from animal to animal through infected feeders and bird baths.

Be cautious in your feeding of birds. Place food in a bird feeder. Regularly rake under the feeder to remove food from the ground. If the notice nuisance animals, remove the food source at once. Disinfect feeders with a small amount of bleach every two weeks. Change the water in bird baths weekly (this will also help reduce the risk of West Nile Virus).

Also, the City Council recently passed an ordinance prohibiting the feeding of geese, ducks and other waterfowl, especially in Centerpoint Preserve. Feeding of waterfowl is harmful to the birds, and also encourages them to linger at Centerpoint where they leave droppings on the bike path and playing fields. Signs have been posted, and the fine is \$25.00 per violation. If you don't want your children playing in goose waste, please do not encourage the geese to hang around by feeding them.

## Building Permits

Please remember that Building Permits are required before undertaking most construction projects in your home. Building Permits ensure that the construction conforms to the Zoning Ordinance and Building Codes. To obtain a building permit or request information, contact the Building Department at (708) 343-8700.

## Fence Permits

A permit for a fence is required before you install the fence. Fences are not allowed in the front yard of a residential property. To obtain a fence permit, residents must complete a simple application form, show a copy

of their plat of survey, and indicate the location, size, height, and type of fence to be installed. If a contractor is installing the fence, the contractor must be licensed, bonded, and insured and present a copy of the contract.

## Excavation Work

For your protection, call the Joint Utility Locating Information for Excavators (J.U.L.I.E.) at the number below before you dig for any home improvement project, including additions, sheds, decks, pools, or tree planting. J.U.L.I.E. is a message handling service which coordinates the locating of utilities to protect those digging and the underground facilities from damage.

J.U.L.I.E.'s number is toll free and they operate 24 hours a day, 365 days per year. When you or your excavator call, J.U.L.I.E.'s operator will request your name, phone number, and address, as well as the excavation site address, the type and extent of work, and start date. J.U.L.I.E. 1-800-892-0123 Illinois State Law requires two-working days notice.

## Be A Good Neighbor

The following are matters of being good neighbors:

- Parking vehicles in the grass is prohibited
- Loud music from cars and residences is not only disturbing to your neighbors, it can result in a ticket and fine
- Garbage is not allowed to be placed out for collection before 5:00 pm. on Thursday
- Fireworks are illegal, and especially disturbing to your neighbors late at night.
- The Illinois Vehicle Code requires that all motorized vehicles using the streets must be licensed. This means that all motorized scooters, go-carts, dirt bikes, etc. are prohibited from the streets unless they are licensed by the state. These devices are also prohibited from our sidewalks and the bike path. Parents, please remember that if you purchase these items for your children, they are only allowed on private property, and that operation on the public right of way is at your own risk and could result in a citation.

A large number of Code Enforcement calls can be eliminated if everyone remembers to be a good neighbor, especially during the summer when everyone is outside and the windows are open.

CITY OF NORTHLAKE  
OFFICE OF THE MAYOR  
NORTHLAKE, 60164

JEFFREY T. SHERWIN  
MAYOR

April 10, 2013

Alderman Carrie Austin  
121 N. LaSalle, Room 200  
Chicago, IL 60602

Re: "Free" water to non-profits

Dear Alderman Austin:

I read the Sun Times article of April 10 concerning your proposal to restore the "free" water perk to non profits. As lovely as this idea is, there is really no such thing as "free" water unless you go to Lake Michigan and fill your own bucket. The cost of this "free" water will be passed on to other users in the water system.

If you want this so called "free" water service restored for non-profits, that's fine **as long as the cost of the "free" water is passed on to Chicago residents and not to Chicago's suburban customers.**

Yours truly,

Jeffrey T. Sherwin  
Mayor

## Help Fight Mosquitoes

**It's a fact... mosquitoes develop in water.**

Over 40 different species of mosquito occur within Illinois. Each species has its own developmental habitat, however all mosquitoes need water in which to pass their early life stages. Some mosquitoes lay their eggs directly on the surface of water. Other mosquitoes lay their eggs in areas that will eventually fill with water. Once eggs come in contact with water, they hatch into larvae within 3-5 days. Mosquito larvae undergo four stages of growth and development called instars. Larvae feed on organic material and microorganisms in the water and return to the surface of the water to breathe. Larval development may be as rapid as 5-7 days in warm weather. After the larval stages are complete, the larvae shed their skins and emerge as comma-shaped pupae. Pupae are very active and dive vigorously if disturbed. Pupae do not feed while they undergo metamorphosis to the adult stage. The adult mosquito emerges from the pupal skin and rests on the water's surface until it dries.

Both male and female adult mosquitoes feed on plant nectar, but only the female bites to get the blood needed for the development of eggs. While some kinds of mosquitoes can live several months, the main nuisance mosquitoes we have in this area usually survive four weeks or less. Not all mosquitoes can carry disease, nor are all mosquitoes vicious biters. Some kinds of mosquito never bite humans. Mosquitoes also vary in the distances they travel from the water they developed in. While some species will not stray more than a block or two from their source, other species' flight range can be 20 miles or more.

**Here's what you can do...**

It doesn't take much water for mosquitoes to develop. Many potential breeding sites can be found around the home. You can take the following simple steps to eliminate potential sources:

- Throw away all trash that can hold water (cans, jars, tires, etc).
- Clean rain gutters and downspouts to prevent water from standing in gutters or on flat roofs.
- Change water in bird baths, wading pools, etc. at least once a week. Maintain swimming pools properly.
- Keep ditches and streams on or around your property free of grass clippings, garbage, and other debris to insure proper flow of water.
- Screen rain barrels with 16-mesh screen to prevent adult mosquitoes from depositing eggs on the water's surface.
- Stock ornamental ponds with goldfish or other surface-feeding fish to control mosquito production.
- Clean out and fill tree holes.
- Stack pallets, barrels, tubs and similar containers upside down.

Eliminate any place where water can stand and...  
**you eliminate mosquitoes!**

## Planning to Put Up a Shed?

If you are planning to put up a shed in your yard this summer, there are some important things you need to know first. You need to get a permit from City Hall, 55 E. North Avenue. You need to bring in your plat of survey.

When looking at what type of shed to put up, here are the City's requirements. The shed cannot be more than 120 square feet and no more than 8 feet high. The shed needs to be at least 3 feet off the side of the property line and 10 feet away from the back of the property line. It also has to be 10 feet away from any structure and it must have a solid floor.

If you do not get a permit, you will get a ticket. If it is not in the right place, you may be required to move it. However, if not, you will be required to move it before you can sell the house. For any additional information, please contact the Building Department at 708-343-8700.

# Record Rains Flood Northlake

Record rains flooded the City of Northlake and the greater Chicago Metropolitan area on Wednesday and Thursday, April 17-18, 2013. The City was subjected to 6 inches of rain along the Illinois River.

Northlake was cut off for a period of time due to flooding at North and Mannheim, North Avenue and the railroad, Lake Street viaduct, Grand Avenue and Green Street.

The Doyle Detention Pond at North and Railroad was completely filled and overflowing. The detention pond behind West Leyden was filled to capacity as was the Railroad while several other communities, particularly along the Des Plaines River, were still experiencing flooding into the next week.

## Northlake Police Department

Police Station, designed by SRBL Architects, which later merged with FGM Architects of Oak Brook, floods for third time since 2009. The construction manager for this project was Camosy Construction of Zion, IL. Repairs each time have cost thousands of dollars, not all of which was covered by insurance. Litigation is pending and no settlement with the various contractors or architect has been reached to date.
